0. Overview of Business Operations

0. Overview of Business Operations

- Cyberlinks operates across four segments: the Distribution Cloud business, the Government Cloud business, the Trust business, and the Mobile Network business
- A business portfolio centered on essential-infrastructure markets and resilient to economic cycles

1 Distribution Cloud

Delivering cloud services specifically targeting the food distribution industry
Future growth drivers

Sales JPY**5.3**bn Ordinary Profit JPY**0.77**bn

2 Government Cloud

Providing digital transformation (DX) solutions for local governments
Expanding through both Local Engagement and National Expansion

Sales JPY**8.4**bn Ordinary Profit JPY**1.20**bn

4 Mobile Network

Operates approximately half of all Docomo Shops in Wakayama Prefecture
Stable earnings base

Sales JPY**4.2**bn Ordinary Profit JPY**0.37**bn

3 Trust — launched in 2021

Provides My Number Card-based authentication and digital certificate issuance services
Building Trust into a new pillar of growth

Sales JPY**0.14**bn Ordinary Profit JPY**(0.06)**bn

1. Executive Summary

- Net sales and ordinary profit increased, driven mainly by progress on various Government Cloud projects and the broader rollout of Distribution Cloud services.

- Net sales and ordinary profit progressed broadly in line with the 1H forecast. The Company is targeting full-year record highs for both.

Net sales (cumulative) (100mn yen)

Ordinary profit (cumulative) (100mn yen)

2. Consolidated 1H FY12/26 Results & Full-Year FY12/26 Forecast Factors affecting ordinary profit

- In the Distribution Cloud segment, sales increased as service delivery expanded, but ordinary profit edged down as labor and other costs increased following staffing expansion conducted to support new system implementation projects.
- Government Cloud: Projects involving the standardization of local government ERP systems, disaster prevention radio systems, and document management progressed, contributing significantly to profit growth.

Net sales

Recurring revenue

Ordinary profit

1H FY12/26 Results

Sales increased on broader delivery of various services, but ordinary profit edged down due to growth in labor costs accompanying staff expansion and related measures adopted to support a growing number of new system implementation projects.

- ◆ @rmsV6, a core ERP system for medium-sized and large supermarket chains
Launched operations for two additional customers from March 2026
- ◆ Sales growth generated through progress on implementation of @rmsV6, sendonetV2, etc
- ◆ @rmsV6, Automatic Ordering, etc.
secured multiple new orders
- ◆ Cloud EDI Platform
Secured an order from an existing major customer seeking to migrate fully to the Cloud EDI Platform.

Full-Year FY12/26 Forecast

Although some system rollout projects have been delayed, work continues to progress steadily. Meanwhile, upfront investment continues as the Company builds the staffing and system implementation capabilities needed for upcoming customer go-lives

- ◆ @rmsV6
Advance development targeting the incorporation of AI functionality
Prioritize system implementation work for upcoming customer go-lives
- ◆ Increase recurring revenue through broader service delivery
@rmsV6 , SendonetV2 , Automatic Ordering,
Cloud EDI Platform etc.
- ◆ RetailPro, a sales management system for specialty stores.
Rollout is expanding from an existing customer's overseas stores to its stores in Japan.

ARR has increased with the launch of multiple services, including @rmsV6.

ARR (Monthly recurring revenue for the final month of a given quarter × 12 months)
(100mn yen)

Key Service KPIs *() indicate changes vs. FY12/25 q4

 All Retail Management System	FY12/25 Results	1H FY12/26 Results	FY12/30 Medium-term management plan

Net sales

Recurring revenue

Ordinary profit

1H FY12/26 Results

Local government DX and disaster prevention system construction projects contributed to sales and profit growth

- ◆ Sales and profit increased, driven by projects related to the unification and standardization of local government ERP systems, and disaster prevention radio systems
- ◆ Recurring revenue increased due mainly to the standardization of local government ERP systems, new ActiveCity document management system deployments, and M&A activity undertaken in FY12/25
- ◆ Minnano Madoguchi online public service portal for local governments
Launched for the Tokyo's Edogawa Ward
Released AI chatbot functionality
- ◆ Undertook sales initiatives to raise awareness of the Company's nationwide cloud services
Participation in trade shows led to growth in new orders and a larger pipeline of sales opportunities

Full-Year FY12/26 Forecast

Sales and profit growth driven primarily by local government DX projects
Aiming to outperform full-year targets

- ◆ Projects related to the unification and standardization of local government ERP systems
Recurring revenue expanded as system migrations were completed
- ◆ Promote initiatives aiming to incorporate AI functionality into Minnano Madoguchi and ActiveCity
- ◆ Software amortization associated with the acquisition of Synergy Inc. to decrease JPY 70 million per year

*We changed our reportable segment classification starting in FY12/24.
The segment sales and profit figures for FY12/23 in this document are based on the new segment classification.

Net sales

Recurring revenue

Ordinary profit

1H FY12/26 Results

Sales increased thanks to contribution from large-scale development projects

- ◆ Contribution from contract-based development projects for national qualification examination systems
- ◆ Expanded delivery of CloudCerts services
Secured several new orders, primarily for small projects, and began issuing digital certificates.
- ◆ Continue aiming to acquire new customers through initiatives such as joint trade show participation between the Trust and Government Cloud segments

Full-Year FY12/26 Forecast

Accelerating efforts targeting the distribution of VC*

- ◆ Achieved progress on contract-based development projects for national qualification examination systems
The Pharmacist Credential Application Service and Review System developed for the Japan Pharmaceutical Association, a public interest incorporated association from July 2026.
- ◆ Construction of VC* distribution platform
Promote sales of eKYC (facial recognition) services; facilitate initiatives aiming to build wallet functionality

*VC: Abbreviation for “Verifiable Credentials”
A machine-readable, general-purpose data format (digital certificate) and data distribution model enabling functions such as authenticity verification and tamper prevention through digital signatures

*We changed our reportable segment classification starting in FY12/24.
The segment sales and profit figures for FY12/23 in this document are based on the new segment classification.

Net sales

Recurring revenue

Ordinary profit

1H FY12/26 Results

Sales were flat, but ordinary profit declined partly because of revisions made to incentive programs.

- ◆ Ordinary profit declined due to incentive program changes, higher promotional expenses, and growth in personnel expenses attributable to salary increases.
- ◆ Optimized store locations to balance coverage across trade areas
Closed the Docomo Shop JR Wakayama Station Store and opened the Docomo Shop AEON TOWN Kishigawa Store
Established a sales presence in a new trade area
- ◆ Established a centralized operations hub at headquarters.
Launched online customer-service support for stores

Full-Year FY12/26 Forecast

Despite incentive program changes and other factors, the Company will pursue productivity improvements with the aim of achieving its full-year targets.

- ◆ Focus on sales activities, including off-site sales efforts and the development of new sales areas
- ◆ Pushing forward with initiatives targeting improvement in store-operating productivity
Expanding the range of operations handled by the centralized operations hub at headquarters to drive further improvement in store-operating efficiency

3. Shareholder Returns

Shareholder Return Policy

We will raise our dividend payout ratio and dividend per share in line with improved earnings and profitability (improved cash flow) by making progress toward our medium-term targets, while securing the internal reserves necessary to make bold and timely investments for business growth.

Basic shareholder return approach
Maintain progressive dividend policy and raise the dividend payout ratio

*No revisions have been made to the forecast announced on February 13, 2026.

■ Growth continued to be driven by the Distribution Cloud business

- We expect growth in sales from the Government Cloud and Distribution Cloud businesses.

Net sales (100mn yen)

Recurring revenue (100mn yen)

■ Distribution ■ Government ■ Trust ■ Mobile *Figures for 2025 refer to actual results, figures for 2026-2030 refer to the earnings forecast.

- In 2027, we anticipate the Government Cloud business will face a drop-off after the strong contribution from local government ERP system standardization projects fades. However, goodwill amortization associated with the acquisition of Synergy Inc. (JPY 160 million per year) will end in 2027, paving the way for profit growth from 2028 onward.

- Drive significant profit growth by expanding services and increasing recurring revenue

Net sales (JPY100mn)

Recurring revenue (JPY100mn)

Ordinary profit (JPY100mn)

*Figures for 2025 refer to actual results, figures for 2026-2030 refer to the earnings forecast.

- Achieve recurring revenue ratio of over 50% through growth in nationwide cloud services

*Figures for 2025 refer to actual results, figures for 2026-2030 refer to the earnings forecast.

- Targeting profitability by 2026 while expanding revenue to establish the Trust Business as a core earnings pillar by 2030

Net sales (JPY100mn)

Recurring revenue (JPY100mn)

Ordinary profit (JPY100mn)

*Figures for 2025 refer to actual results, figures for 2026-2030 refer to the earnings forecast.

- Despite a challenging business environment, maintain sales and profits by improving operational efficiency.

Net sales (JPY100mn)

Recurring revenue (JPY100mn)

Ordinary profit (JPY100mn)

*Figures for 2025 refer to actual results, figures for 2026-2030 refer to the earnings forecast.

- Our PBR is above 1.0x but below the industry average.
- Our PER is particularly low compared to the industry average.

*Industry averages are the weighted averages for the Information & Communication sector among companies listed on the TSE Standard Market and are prepared based on the Tokyo Stock Exchange's "PER/PBR by Company Size and Industry (Consolidated/Non-consolidated) List (January 2026)."

- While maintaining financial soundness, we aim to achieve an **ROE of 13.0% or higher**—a level that exceeds our cost of equity (approx. 10%) and **generates a positive equity spread**.

ROE Improvement Measures

Business growth

Steady execution of mid-term management plan

Financial strategy

- Limit excess cash and deposits
- Optimize capital allocation across the Group
- Maintain progressive dividend policy and raise the dividend payout ratio
- Execute timely share buybacks

Reference Calculating cost of equity using CAPM

$$\begin{matrix} \text{Risk-free rate} \\ 2.25\% \end{matrix} + \begin{matrix} \beta \\ 1.0 \end{matrix} \times \begin{matrix} \text{Risk premium} \\ 7.37\% \end{matrix} = \begin{matrix} \text{Cost of equity} \\ 9.6\% \\ (\text{approx. } 10\%) \end{matrix}$$

Although the beta value of our stock is around 0.8, there are concerns about its reliability due to low liquidity.
We have adopted a β of 1.0 and set the market average expected yield as the cost of shareholders' equity.

- We are striving to enhance the appeal of our shares through strengthened IR activities and expanded shareholder returns, targeting a PER of 17.0x or higher.

PER Improvement Measures

IR strategy

Sustained medium- to long-term share price appreciation requires participation from a diverse investor base, including institutional investors; **however, we currently lack sufficient liquidity to attract institutional investors.**

For the time being, we will continue to implement initiatives centered on individual investors—holding briefing sessions, exhibiting at trade shows, and sharing information via SNS—to focus on improving share liquidity, while also conducting proactive outreach targeting institutional investors.

Shareholder return measures

Maintain progressive dividend policy and raise the dividend payout ratio

- Cumulative operating cash flow over five years: approx. JPY 14.0 billion (of which approx. JPY 5.0 billion will be allocated to growth investment)

Mid-Term Management Plan (FY2026–FY2030): Five-Year Cumulative Plan

Promotion of initiatives in response to Japan’s Corporate Governance Code

E

- Calculate CO2 emissions (Scope 1 through 3) and set/disclose reduction targets (Scope 1 and 2)
- Enabled signing of minutes and commercial registration online with MynaTrust
- Gradually replace gasoline vehicles with PHVs in our fleet

S

- Raise salaries (company-wide average of 3.4% increase April 2026)
- Implement initiatives to promote the advancement of women in the workplace
(ratio of senior staff: 28.5%; ratio of managers: 7.0%) *As of December 31, 2025.
*By end-FY12/25: 25% target ratio of female senior staff; By end-FY12/30: 10% target ratio of female managers
- Promotion of paternity leave among male employees (2025 take-up rate: 92.3%)
- Introduce a restricted stock incentive plan through the employee shareholding association to help employees build personal wealth and foster a stronger commitment to enhancing corporate value
- Encourage company-wide operational use of AI (for development work, etc.) to improve productivity

G

- Ensure at least one-third of directors are independent outside directors
- Adopt the exercise of voting rights via the Internet
- Enhance and improve both English disclosure materials and English IR website; establish a YouTube channel
- Strengthen outreach to, and engagement with, individual investors by exhibiting at investor events, holding more briefings for individual investors, utilizing social media, and producing an introductory manga regarding the Company

Organizational Chart

【Management Philosophy】

To be noble, strong, and devoted

Business is a noble social activity

Professional duties and business operations are not merely means of earning a livelihood; they are also forms of social engagement.

Business operations are honorable social activities through which essential services are provided for a fee. As such, they fulfill an important role, supporting society alongside government administration and volunteer efforts.

Companies prioritizing selfish motives fall away, while only those providing outstanding services continue to grow.

Through pride in our work and commitment to society, we find true happiness as individuals.

- A business model generating recurring revenue from monthly usage fees, providing a foundation for stable growth
- For users, these cloud services address engineer shortages and provide continuous access to the latest systems while eliminating the need for major initial investment.

User Benefits

Address engineer shortages

Provide continuous access to the latest systems

Eliminating the need for major initial investment

Cyberlinks' Earnings Model

Recurring revenue from monthly usage fees

✓ Earnings build as more companies adopt the service

✓ Stable, subscription-based earnings model

4. About CYBERLINKS Business Performance

- We prioritize recurring revenue, which comes in continuously, rather than relying on one-off sales.
- Stable business foundation supported by customers centered on the essential infrastructure sector to mitigate the impact of economic fluctuations.

4. About CYBERLINKS

① Distribution Cloud

- We have established a business model that achieves high stability by prioritizing recurring revenue from monthly usage fees.
- Our rate of churn for services is low, with recurring revenue rising by over JPY 200 million annually.

Cloud services specifically targeting
the food distribution industry

Share of food retailers
utilizing our services

Share of top-ten processed food
wholesalers utilizing our solutions

Cyberlinks is the **only** provider

30%

8/10 companies

- Cyberlinks provides services in two key sectors within the broader food distribution value chain; namely, food retail and food wholesale.
- By concentrating on these two sectors, we have developed a thorough understanding of corresponding business practices and challenges, enabling user-centric service development and deployment.

Select Food Retailers

ツルハドラッグ

ドン.キホーテ

For Your Smile 健康で豊かな暮らしづくりのお手伝い

Select Food Wholesalers and Manufacturers

- @rmsV6, the core ERP system for medium to large-sized supermarket chains, expands the Company’s target market to larger operators with extensive store networks.
- Some peripheral systems already have extensive implementation track records among major retailers, and the Company plans to expand into non-food retail segments such as drugstores.

- Retailers (grocery supermarkets, etc.) employ a wide range of methods when placing orders with processed food wholesalers.
- By consolidating communication methods and character encoding formats under a unified standard, we can significantly reduce operational burdens and costs for client companies (processed food wholesalers).

Diverse communication formats create confusion among wholesalers

Consolidate network types and communication methods

Our Cloud EDI Platform automatically standardizes formatting for all incoming communications

4. About CYBERLINKS ①Distribution Cloud C2Platform Overview

- The extremely large volume of negotiations among retailers, wholesalers, and manufacturers, which are conducted using a wide variety of formats, including emails and phone calls, creates a substantial operational burden.
- Aiming to significantly enhance efficiency across the entire food-distribution supply chain, we plan to establish a platform for digitizing and standardizing quotation and negotiation procedures.

- A business negotiation support service established by the Japan processed Foods Wholesalers Association with the aim of standardizing business negotiation procedures between manufacturers and wholesalers

4. About CYBERLINKS

② Government Cloud

- Recurring revenue is increasing steadily, thanks in part to M&A.
- Due to the characteristics of this business, non-recurring revenue is highly volatile from year to year, fluctuating significantly according to national policy priorities and budget allocations.

- We have established a strong business foundation in Wakayama Prefecture and surrounding areas.
We aim to generate stable earnings through a strong local presence.
- Leveraging the momentum of municipal digital transformation (DX), which accelerated during the COVID-19 pandemic, we are pursuing a nationwide rollout of DX support services for local governments.

Achieving Growth Through Both Local Engagement and National Expansion

Local engagement(Stable)

High market share built on proven performance and trust

Disaster prevention systems

Monitoring systems for dams,etc.

Installation and maintenance of municipal disaster prevention radio systems

Information systems

Resident information management systems

Ensuring network security for local governments

National expansion(Growth)

Accelerating growth through municipal DX

ActiveCity document management system

Minnano Madoguchi online public service portal

MynaSign electronic authentication service

- An integrated package providing all the tools needed for public records management and electronic approvals. The addition of AI features gives the product a further competitive edge.
- We aim to expand market share by primarily targeting small municipalities.

4. About CYBERLINKS

③Trust

- Developing digital trust services essential for a society becoming less dependent on major platform providers

4. About CYBERLINKS

④ Mobile Network

- As the largest operator of Docomo Shops in Wakayama Prefecture, Cyberlinks manages 10 Docomo Shops within the area.
